

**Funeral Partners**

# A MEMORIAL IS CHOSEN AS A LASTING TRIBUTE TO A LOVED ONE, EVOKING CHERISHED MEMORIES AND CREATING A LASTING LEGACY FOR FUTURE GENERATIONS.

**Most of us at some time in our life are faced with the painful task of choosing a suitable memorial for a loved one. The memorial you choose will forever honour the life of someone you love.**

Incorporated within this brochure you will find a wide variety of memorial styles, sizes and colours, from standard memorials to bespoke creations reflecting a loved one's pastime or interests.

There are no limits to styles of monuments that can be produced, any memorial dimensions can be tailored to suit the rules and regulations for any particular churchyard or cemetery.

As memorial suppliers we can provide any memorial even if it is not shown in the brochure so please enquire with our carefully trained staff who are able to help with any guidance and assistance you may require.

# YOUR GUIDE TO: SIZE & LAYOUT

## LAWN MEMORIALS

Any headstone from the memorial range can be reduced in size to suit all churchyard and cemetery regulations.

	A	B	C
HEADSTONE	2'6" x 2'0" x 4"	2'3" x 1'9" x 3"	1'6" x 1'6" x 3"
BASE	2'6" x 1'0" x 4"	2'0" x 1'0" x 3"	1'9" x 1'0" x 3"

Note: Sizes may vary to suit individual regulations.

## WHAT TO EXPECT

The layouts illustrated are a guide to the final proof that you will receive for all new memorials quotes and orders that are placed.

These layouts have to be signed before any physical work is carried out on your memorial order. This layout acts as the final proof.

Illustrations are available for all new orders and quotes, noting they are guide line only.

The layout is supplied and requires signing for acceptance. This will act as the final signature to proceed with the mason work.

No work will be carried out without the layout being signed and dated.

# CHOOSE A MEMORIAL WITH THE HELP AND UNDERSTANDING OF A NATIONAL ASSOCIATION OF MEMORIAL MASONS MEMBER (OR BRAMM)

## WHAT MAKES A MEMORIAL?

Memorials are usually erected in cemeteries or churchyards.

They need to be of a material that:

- will withstand the weather,
- can take a lasting, carved inscription,
- and, at a later date, is suitable for shaping and ornamentation.

Time has shown that natural stone (i.e. stone, slate, marble and granite) has all these qualities.

## CHOOSING A MEMORIAL

A memorial is a lasting monument, tribute to a person's life, perhaps a final gift to someone dearly loved, therefore it is important to choose carefully.

Hasty decisions made while still in great distress frequently result in later regrets, so it can be sensible to wait and to spend time on selecting a suitable design.

## SELECTING A MEMORIAL MASON

You may wish to use a company recommended by a friend or relative, or you may need to look around. Whichever you do, it is generally advisable to use one which specialises in memorial masonry.

The company should understand stone and so be able to give you reliable advice as to whether the stone you are choosing is suitable for the type of memorial you require and for the area in which it is to be fixed. Weather, pollution and surrounding

vegetation can have an effect on this. Members of the National Association of Memorial Masons (NAMM) are bound to strict Codes of Business and Working Practice and, should a dispute unfortunately arise, by the findings of a free and objective Conciliation and Arbitration Service.

NAMM members must have Public & Products Liability Insurance of no less than £5 million, Employee Liability Insurance of no less than £10 million and must also give a guarantee of the stability of their memorial.

Many masons will have been accredited by NAMM to use the Code of Working Practice - Fixing Safe Memorials.

## WHAT YOU MAY CHOOSE

### Burials

In general cemeteries and churchyards usually have regulations governing the kinds of memorials and, sometimes, the inscriptions and ornamentation they will allow. These vary from place to place and so need to be checked before any choice is made.

### Cremation

There are often special areas for the burial of cremated remains. Some just have a central memorial commemorating all those buried nearby. In others, headstones or plaques can be erected on the individual plots.

## OBTAINING PERMISSION

Before a memorial may be erected in a churchyard or cemetery, written permission has to be obtained from its management. Your NAMM memorial mason will organise this for you.

## THE INITIAL ENQUIRY

It is important to obtain a written estimate clearly setting out full details, together with all the costs of the memorial you are considering. The estimate should include details of the memorial including size, material, lettering, any ornamentation and finishes. Also, it should include the cost of the secure installation of the memorial on a proper foundation together with the cemetery or churchyard fees (NO VAT.) NB. Lettering and ornamentation can be hand carved, sand blasted or machine cut. These options and the different types of stone available all vary in price.

If you obtain estimates from more than one company, do check them carefully to make sure you really are comparing like with like.

## PLACING THE ORDER

When placing the order you will be asked to pay a deposit, with the balance of the agreed price payable later.

Before signing to confirm your order it is important to check it thoroughly. Be particularly careful that the wording and

spelling of the inscription, and any dates, are shown correctly. Any alterations should be confirmed immediately and in writing. NB. Unless you give definite written instructions to the contrary, the layout of the inscription may be left to the letter carver. The availability of the materials, the complexity of design and the condition of the ground will effect the time the memorial will take to complete.

or BRAMM Accredited Mason

# WHY CHOOSE A NAMM/BRAMM MEMBER TO FIX YOUR MEMORIAL

A memorial is a lasting tribute perpetuating a life, it therefore needs to be well made and securely erected. Often it is difficult for a person buying a memorial to assess the quality and workmanship that should be expected. So, to avoid unnecessary future expense, regret or even distress, it is advisable to choose a memorial mason who is required to work to certain specific standards.

Choosing a member of the NATIONAL ASSOCIATION OF MEMORIAL MASONS offers safeguards. EIGHT REASONS for PURCHASING a MEMORIAL from a MEMBER of the NATIONAL ASSOCIATION of MEMORIAL MASONS

1. All members are expected to carry out memorial work to standards acceptable to the Association.
2. All members are skilled memorial masons with a full understanding of their craft and therefore are capable of providing proper aftercare service.
3. All members must have a well established businesses with a proven trade record.
4. All members must adhere to a strict Code of Ethics.
5. All members are required to have Public Liability Insurance cover.
6. All members are encouraged to take part in training schemes, seminars and craft competitions organised by the Association to promote high standards of craftsmanship.
7. All members are able to offer memorial insurance through schemes approved by the Association - these cover all risks, including vandalism.
8. All members are bound by the findings of the Association's Independent Conciliation and Arbitration Service should any problem arise

## NAMM Safety System For All Memorials

*(Please Note: This system is mandatory in many cemeteries and church yards)*

The new system does not prevent tilting due to subsidence. It is purely a safety anchor to reduce the danger of the stone toppling over.

If a memorial begins to tilt, it can become dangerous. cement joint becomes weathered and without being secured this memorial can be very unstable. But if the safety bar is used, then the memorial can only fall very slowly thus allowing time to move out of it's way, avoiding injury.

### Important Note:

All memorials previously fitted are generally safe, and the new system is only an added safety precaution. For any further details please contact your local retail outlet or local authority. *(This doweled safety system is one of various NAMM fitting methods)*

## VERSES

### ONE LINE

The Lord Is My Shepherd  
I Know That My Redeemer Liveth  
Grant Him Thy Eternal Rest  
Rest In Peace  
Peace Perfect Peace  
Till We Meet Again  
Reunited  
In God's Care  
In God's Keeping  
Thy Will Be Done  
Only Goodnight, Beloved Not Farewell  
Sadly Missed  
Love's Last Gift, Remembrance  
Remembered Always  
Gone But Not Forgotten  
Forever In Our Hearts  
Forever In Our Thoughts  
Always In Our Hearts and Thoughts  
To Live In The Hearts Of Those We Love Is Not To Die

### CHILDREN'S TEXTS

Safe In The Arms Of Jesus  
There Is A Home For Little Children  
Above The Bright Blue Sky  
Jesus Called A Little Child

### TWO LINES

Father In Thy Gracious Keeping  
Leave We Now Our Loved One Sleeping  
If Love Could Have Saved You  
You Would Never Have Died  
His Life A Beautiful Memory  
His Absence A Silent Grief  
Tenderly I Treasure The Past  
With Memories That Will Always Last  
A Last Goodbye You Didn't Say  
But In My Heart You Will Always Stay  
In Heaven You Rest, No Worry, No Pain  
God Bless You Till We Meet Again  
Deep In My Heart You Will Always Stay  
Loved And Remembered Every Day  
Out Of Depths I Have Cried To  
Thee Lord - 'Hear My Prayer'  
On Earth One Gentle Soul Less  
In Heaven One Angel More

### CHILDREN'S TEXTS

A Tiny Flower Lent Not Given  
To Bud On Earth And Bloom In Heaven

### FOUR LINES

Some Broken Hearts Never Mend,  
Some Memories Never End,  
Some Tears Never Dry,  
My Love For You Will Never Die.  
You Left Us With Happy Memories  
That Can Never Be Taken Away,  
But You're Missed So Much By All Of Us,  
More Than Words Can Say.  
Our Family Chain Is Broken  
Nothing Seems The Same  
But As God Calls Us One By One,  
The Links Will Join Again.  
God Saw You Getting Weary,  
A Cure Was Not To Be,  
So He Put His Arms Around You  
And Whispered "Come To Me"

# PERSONALISE YOUR MEMORIAL WITH LASER ETCHING TECHNOLOGY

L A S E R E T C H I N G S

THE WATERFALL

Bring what you require and see our amazing transformation to your chosen Memorial Stone. Laser Etching works best generally on black memorials. For other colours, a sample can be arranged within reason.

You have a choice of standard or colour. Simply ask your mason for a proof of any theme that you require. Actual work done will always be less quality than the proof (where provided) as on paper.

Etchings are available as: full  $\frac{1}{3}$ ,  $\frac{1}{4}$ ,  $\frac{1}{2}$  and to suit a size as required. Ask your memorial representative for required size for pricing.

# YOUR GUIDE TO: STATUES

Our statues are true works of art, made in reconstituted marble, obtained from a precious powder mixture of true and crystalline white carrara marble. This is a small selection of our most popular statues.

If you require anything other than those shown, please visit the website.

S1 OUR LADY

(Available in 22cm, 27cm)

S2 OUR LORD

(Available in 27.5cm, 37cm)

(Available in 46.5cm)

S6 DOVE

(8cm x 7cm x 12cm)

S6 DOVE

S7 PRAYING GIRL

(Available in 33.5cm)

S8 PRAYING BOY

(Available in 34cm)

All statues are subject to slight variation

# A GUIDE TO CHIPPINGS

The central area of a kerbed memorial can be filled with materials like soil, plants or chippings. Coloured Glass & Stone chippings are the perfect way to enhance the way kerbed memorials look. We stock a wide range of colours so that you can truly personalise your kerbed memorial.

PINK

AQUA

GREY GRANITE

EBONY

RED GRANITE

## WHERE DO THEY COME FROM?

Our Chippings are sourced from United Kingdom, China, India, Italy and other places worldwide. We can accommodate colours and materials of your choice also.

## GLASS CHIPPINGS

Our Glass Chippings are very versatile and can add that extra colour and texture to memorials. Made from 100% recyclable glass bottles and jars, they are environmentally friendly. They do not discolour with weathering unlike some other aggregates.

## STONE CHIPPINGS

Natural in material and colour, our stone chippings maintain colour and form even in the harshest weather conditions. They require minimal maintenance, and add a great touch to many memorials.

## MARBLE-QUARTZ CHIPPINGS

Our Marble-Quartz Chippings offer a strikingly modern finish, ideal for modern memorials. They work perfectly as a contrast to other aggregates and slates. When hit by sunlight, the chippings will sparkle and glisten.

# RANGE OF STONE COLOURS

Throughout our brochure, you will find memorials made in granite, marble, and a range of natural stones. Before making your decision, it is important to understand some of the characteristics of these materials and their suitability for your needs.

## WHERE DO THEY COME FROM?

Our materials arrive in the United Kingdom from China, India, Italy and other places worldwide. We stock most of the materials however, if they are not, please be advised this will impact time frames and availability.

## GRANITE

The hardest and most durable material that we offer for memorials is Granite. Weathering better over time, it is one of the hardest materials available. That being said, some granites are more porous than others and will tend to show variation in colour when wet. Polishing brings out the true natural beauty of Granite and we are able to offer a range of finishes on this material, which can be seen throughout the brochure. These finishes include Polished, Honed and Rustic effects.

## ITALIAN WHITE MARBLE

We source marble mainly from Italy. Once a very popular material, known for its ease of carving. These memorials should not be placed near trees, or in damp areas due to its porous nature, which can attract mould, algae and change in colour/characteristics.

## NATURAL STONE

Natural Stone are mainly used to churchyards, but being soft and quite porous will darken and change their characteristics as the years go by.

## MAINTENANCE

Understanding the maintenance requirement of different materials may help you to make the right choice when choosing a suitable memorial in memory of your loved one.
